IN THE UNITED STATES DISTRICT COURT
FOR THE DISTRICT OF COLORADO

Jeffrey T. Maehr, Plaintiff	)	
v.	)	
U.S./State Department Defendant	)	Case# 18-cv-02273

ADDENDUM TO AMENDED BRIEF

Plaintiff comes before this court with this addendum with additional "discoverable evidence" information just received which Plaintiff believes will provide further exculpatory evidence that the Defendant's assessment is fraudulent against Plaintiff, and is likely also routinely applied to millions of Americans.

ADDITIONAL CLAIM FOR RELIEF

1. Plaintiff was recently contacted by a retired expert in the field of forensic auditing and accounting, (30 years experience) having learned of Plaintiff's suit against the assessment by Defendant. This information involves what is called an "Individual Master File" (hereafter, IMF), whereby Defendant's records and documentation of all assessments and all elements related to such assessments are to be part of Defendant's lawful records.

2. According to the forensic auditor, based on past experience in forensic study of IMF's, it likely will show that the assessment is fraudulent on more than the first claimed pre-assessment record level in utilizing computer generated

records, which are not lawful, and bypasses any actual Defendant agent (human being) with first-hand knowledge of the assessment process against Plaintiff.

3. This witness testifies to the following in his 57 page forensic study (available in discovery) of 10 individual IMF records of 10 IRS assessment victims filed in the District Court of the United States for the District of Columbia:

> "I conclude IRS is operating an institutionalized, systematic, invariable, felonious program to falsify its records concerning 'non-filers', to ultimately create the appearance in its records of 'deficiencies' supposedly owed by victims when Congress imposed no duty to file or pay income tax on 'non-filers'. IRS and DoJ use the falsified records to justify seizures, forfeitures and criminal prosecutions of victims."

4. Of course, Plaintiff wishes to obtain his personal IMF record for the years 2003-2006 to have the forensic expert examine them, and to testify if necessary, to verify whether there is further evidence of assessment fraud against Plaintiff.

5. Considering that Defendant now has 60 days (approximately) to respond to Plaintiff's Amended Brief, Plaintiff requests from the court that this IMF record also be part of his request for discovery of Defendant's alleged assessment records, and that to dismiss this case before discovery of all these records is premature at best, and such attempt is prima facie evidence of obstruction of discovery and justice by Defendant.

6. Plaintiff has sent a Notarized FOIA request to the Defendant's "Disclosure Scanning Operation" office in Atlanta for documents, but requests that the

Defendant also be ORDERED to provide the additional[1] discovery evidence as requested in Exhibit A, as sent to the Defendant's office as stated, to assure that all records are correctly being reproduced.

Respectfully submitted, Dated: May 13, 2019.
